# Lumen Pharmachem Pvt. Ltd.

*(Where Quality Meets Precision)*

## COMPANY PROFILE

Founded in 2015 and headquartered in Mehsana, Gujarat, India. **Lumen Pharmachem Private Limited** is a dynamic and innovative manufacturer of high-quality pharmaceutical APIs. We specialize in aluminium and magnesium-based compounds, serving the evolving needs of the pharmaceutical, nutraceutical, and food industries across the globe.

Our facility is designed to meet international quality standards, ensuring that every product aligns with GMP, GLP, ISO, and WHO-GMP certifications. We pride ourselves on our commitment to research and development, investing in cutting-edge technologies and a skilled workforce to deliver reliable and effective solutions.

## PRODUCTS

We are a leading provider of aluminium and magnesium-based inorganic antacid compounds, dedicated to meeting the dynamic requirements of the pharmaceutical, nutraceutical, and food sectors across the globe. (DMF available for all products)

### Aluminium Hydroxide Gel (Paste) IH/IP/USP

21645-51-2

A versatile antacid base used in various pharmaceutical formulations.

### Dried Aluminium Hydroxide IP/BP/USP

21645-51-2

Dried Aluminium Hydroxide is primarily used as an antacid for pharmaceutical formulation.

### Magnesium Hydroxide Paste USP/IH

1309-42-8

A smooth, high-quality paste for pharmaceutical applications.

### Magnesium Hydroxide IP/BP/USP

1309-42-8

A widely used antacid and laxative agent, produced with precise quality control.

### Magaldrate IP/BP/USP

74978-16-8

A highly effective antacid and acid-neutralizing agent.

### Magnesium Trisilicate IP/BP/USP

39365-87-2

A reliable antacid and adsorbent with excellent efficacy.

### Magnesium Oxide (Light/Heavy) IP/BP/USP

1309-48-4

Available in both light and heavy grades, ideal for diverse pharmaceutical uses.

### Aluminium Hydroxide Paste for Lake Colour

21645-51-2

Specially formulated for use in lake pigment manufacturing.

### Magnesium Silicate USP

1343-88-0

A pharmaceutical-grade compound for various excipient and adsorbent needs.

### Milk of Magnesia IP/USP

1309-42-8

A classic antacid and laxative, manufactured with precision and care.

# CERTIFICATES

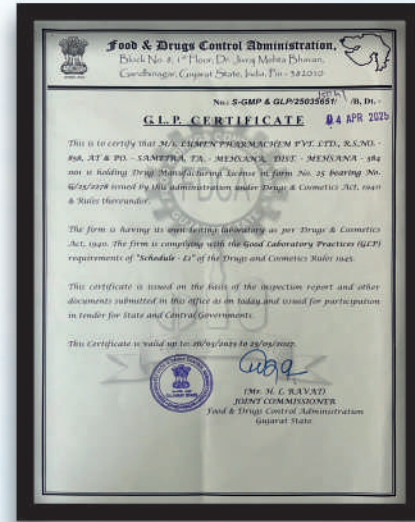

Our facility's adherence to international quality standards—specifically GMP, GLP, ISO, and WHO-GMP demonstrates a strong commitment to product safety, efficacy, and regulatory compliance.

## GMP (Good Manufacturing Practice)

## GLP (Good Laboratory Practice)

Ensuring consistent quality, safety, and efficacy of our pharmaceutical API.

Upholding reliable, accurate, and traceable analytical data.

## ISO Certification

## WHO-GMP Certification

Demonstrating our commitment to international quality management systems and continual improvement.

Validating our compliance with the World Health Organization's stringent requirements for pharmaceutical manufacturing.

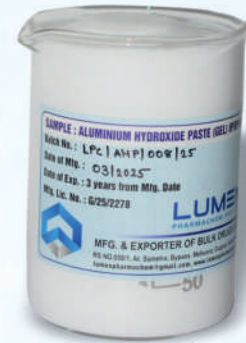

These certifications empower us to deliver products that meet and exceed global regulatory expectations, ensuring our clients receive API they can rely on every time.

## Aluminium Hydroxide Gel (Paste) IH/IP/USP

21645-51-2

A versatile antacid base used in various pharmaceutical formulations.

- Aluminium Hydroxide Gel is a high-quality antacid designed for effective acid neutralization.
- It provides relief from symptoms of hyperacidity, heartburn, and indigestion.
- Our product is manufactured to comply with global pharmacopoeial standards.
- It offers excellent acid-neutralizing capacity for long-lasting relief.

## Dried Aluminium Hydroxide IP/BP/USP

21645-51-2

Dried Aluminium Hydroxide is primarily used as an antacid for pharmaceutical formulation.

- The product is manufactured with strict quality control for optimal purity.
- It minimizes side effects like diarrhea by offering balanced acid-neutralizing properties.
- Dried Aluminium Hydroxide acts as an effective acid buffer in the stomach.
- Our product is free from contaminants and complies with global safety standards.

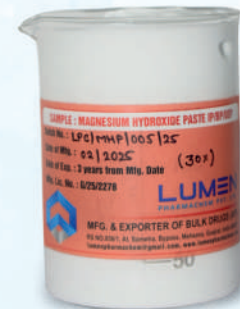

## Magnesium Hydroxide Paste USP/IH

1309-42-8

A smooth, high-quality paste for pharmaceutical applications.

- It is highly effective in relieving constipation by drawing water into the intestines.
- The product ensures reliable performance due to its optimized active content.
- It retains its stability over time, offering extended shelf life for users.
- Magnesium Hydroxide Paste is compatible with sensitive gastric systems for safe use.

## Magnesium Hydroxide IP/BP/USP

1309-42-8

A widely used antacid and laxative agent, produced with precise quality control.

- It is frequently included as an active ingredient in antacid tablets, suspensions, and laxative products.
- The product's osmotic properties help draw water into the intestines to soften stool naturally.
- Magnesium Hydroxide is non-irritating, making it suitable for sensitive patients and long-term usage.
- It serves as an essential source of magnesium in dietary supplements and fortified food products.

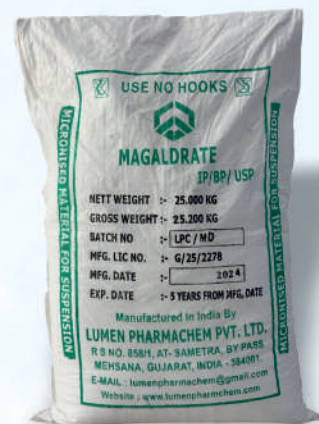

## Magaldrate IP/BP/USP

74978-16-8

A highly effective antacid and acid-neutralizing agent.

- It maintains the stomach's pH at an optimal level, helping prevent acid reflux and gastric irritation.
- Our Magaldrate is manufactured to meet international pharmacopoeial standards like USP, BP, and EP.
- The compound is gentle on the stomach and provides consistent, long-lasting antacid effects.
- It minimizes acid rebound, a common issue with many other antacids, ensuring sustained relief.

## Magnesium Trisilicate IP/BP/USP

39365-87-2

A reliable antacid and adsorbent with excellent efficacy.

- Magnesium Trisilicate serves as a vital ingredient in powdered antacid formulations.
- It is also utilized in industrial filtration processes due to its exceptional adsorptive properties.
- Our product is rigorously tested for consistency, free from contaminants, and offers excellent therapeutic value.
- It is available in customizable grades to suit various pharmaceutical and industrial applications.

## Magnesium Oxide (Light/Heavy) IP/BP/USP

1309-48-4

Available in both light and heavy grades, ideal for diverse pharmaceutical uses.

- Magnesium Oxide offers excellent solubility and ease of formulation in multiple industries.
- It is suitable for environmental uses, such as water treatment and flue gas desulfurization.
- The compound is extensively used in the rubber and ceramics industries as a functional additive.
- Magnesium Oxide supports muscle health and energy production in nutritional formulations.

## Aluminium Hydroxide Paste for Lake Colour

21645-51-2

Specially formulated for use in lake pigment manufacturing.

- Our paste is ideal for creating long-lasting and fade-resistant lake pigments.
- It complies with international regulations for food-grade and cosmetic-grade applications.
- Aluminium Hydroxide Paste ensures reliable performance in dye precipitation processes.
- Its refined texture and composition improve pigment adhesion and color clarity.

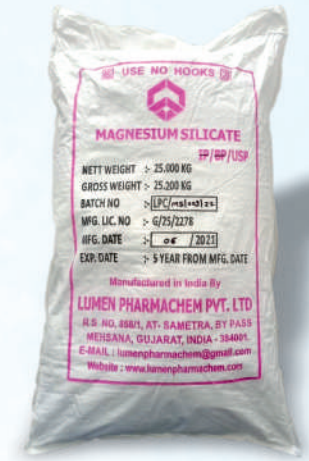

## Magnesium Silicate USP

1343-88-0

A pharmaceutical-grade compound for various excipient and adsorbent needs.

- It is highly beneficial in filtration processes due to its porosity and high surface area.
- Our product complies with global regulatory standards for use in food and medicines.
- Magnesium Silicate is suitable for protecting the gastric mucosa by binding excess acids.
- It is manufactured with strict quality controls to ensure purity and stability.

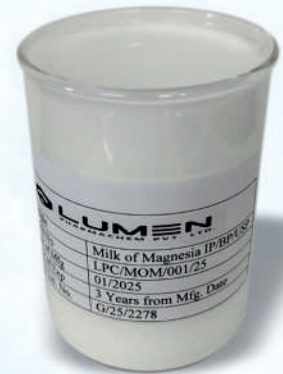

## Milk of Magnesia IP/USP

1309-42-8

A classic antacid and laxative, manufactured with precision and care.

- The product is rigorously tested for quality, purity, and consistency in every batch.
- Milk of Magnesia maintains pH balance in the stomach and supports healthy digestion.
- It offers rapid onset of action, providing immediate relief from gastric discomfort.
- Our formulation minimizes the risk of dependency, ensuring safe long-term use.

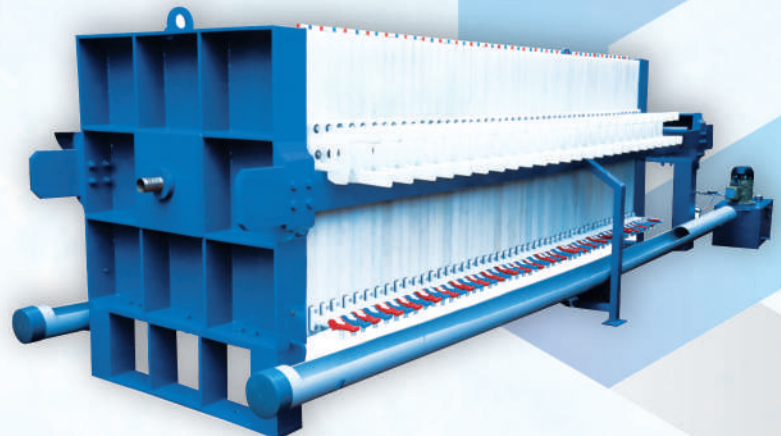

## Manufacturing Plant

At Lumen Pharmachem Pvt. Ltd., our manufacturing facilities are equipped with state-of-the-art infrastructure and adhere to the highest GMP standards. With a strong focus on quality, safety, and scalability, we ensure precision and consistency in every batch we produce.

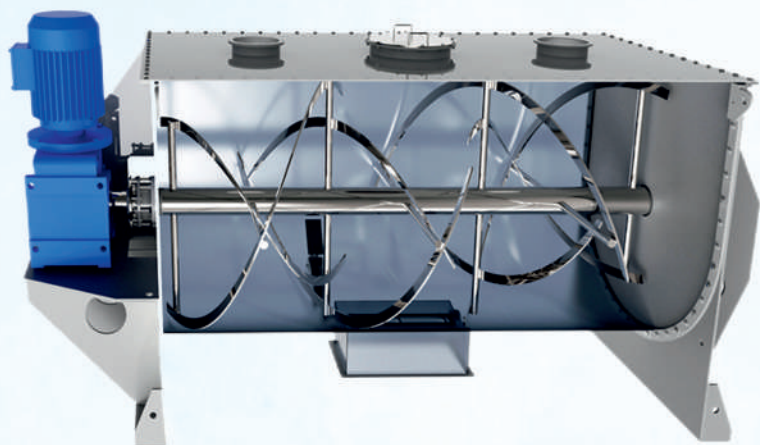

## Reaction Vessel

## Filter Press

Ribbon Blender

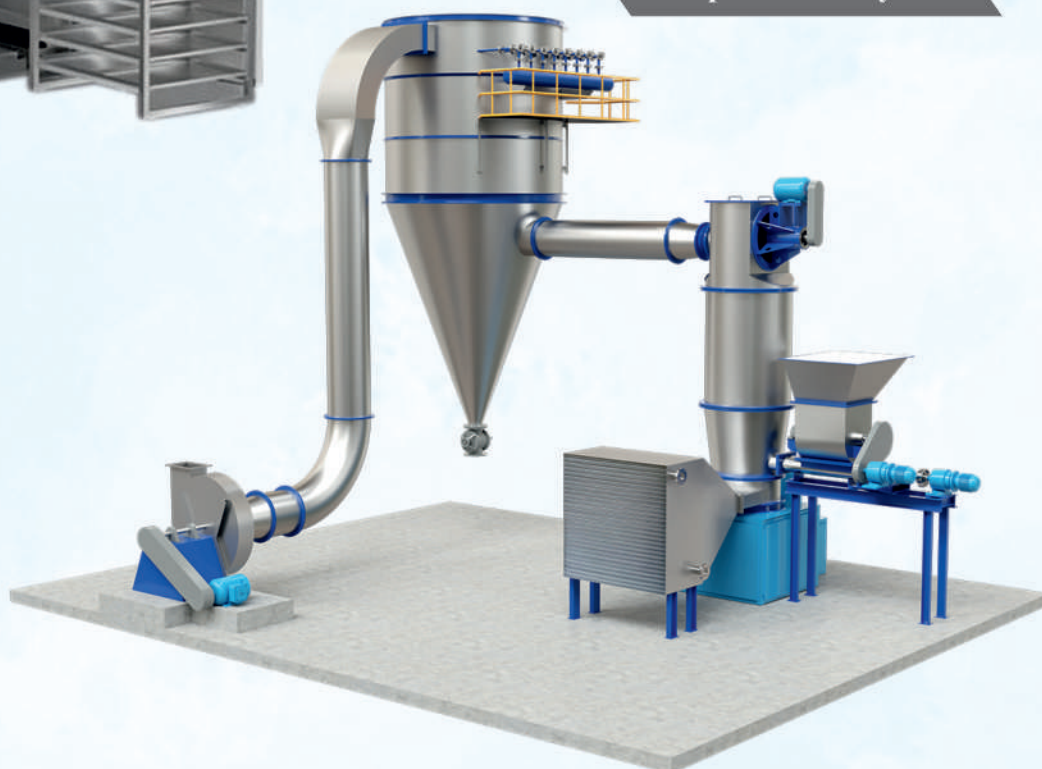

Pulverizer

Tray Dryer

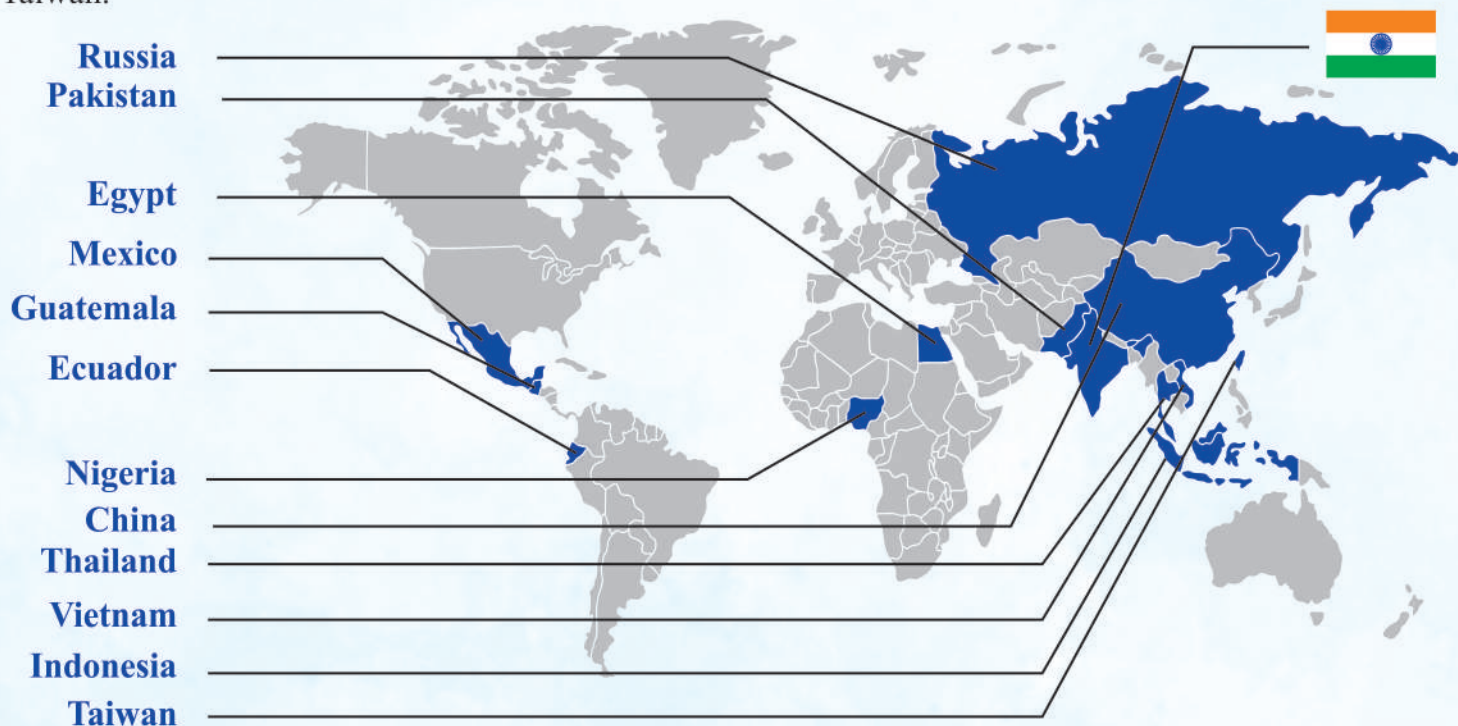

Spin Flash Dryer

## COUNTRIES SERVED

With a dedicated focus on excellence and customer satisfaction, **Lumen Pharmachem Pvt. Ltd.** has established a strong reputation both in domestic and international markets. The company exports to key regions including Asia, North America, Africa, as well as countries like Vietnam, China, Mexico, and Taiwan.

Our commitment to excellence and customer satisfaction has earned us the trust of leading pharmaceutical manufacturers across these diverse regions.

### OUR VISION

To be a global leader in the production of pharmaceutical API, delivering unparalleled quality and service that exceed customer expectations.

### OUR MISSION

To manufacture and supply superior pharmaceutical API that contribute to the advancement of healthcare, ensuring safety, efficacy, and consistency in every product.

### PRODUCTS LIST

Aluminium Hydroxide Gel (Paste) IH/IP/USP  
Dried Aluminium Hydroxide IP/BP/USP  
Magnesium Hydroxide Paste USP/IH  
Magnesium Hydroxide IP/BP/USP  
Magaldrate IP/BP/USP

Magnesium Trisilicate IP/BP/USP  
Magnesium Oxide (Light/Heavy) IP/BP/USP  
Aluminium Hydroxide Paste for Lake Colour
